Introduction

Armal portable restrooms and accessories must be assembled according to approved assembly procedures.

Avoid variations in assembly procedures, which could adversely affect product life and warranty.

Assembly procedures are written for assembly of single units. If assembling multiple units, considerable efficiency can be gained by having a crew working in assembly line fashion.

Don't open up all your kit boxes and bags. Open up only enough kit boxes/bags to assemble the number of toilets you are currently working on.

KEEP PARTS ORGANIZED.

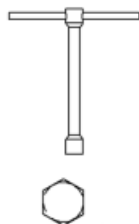

Required Tools

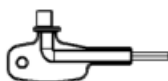

Allen Key N°6

Star screwdriver

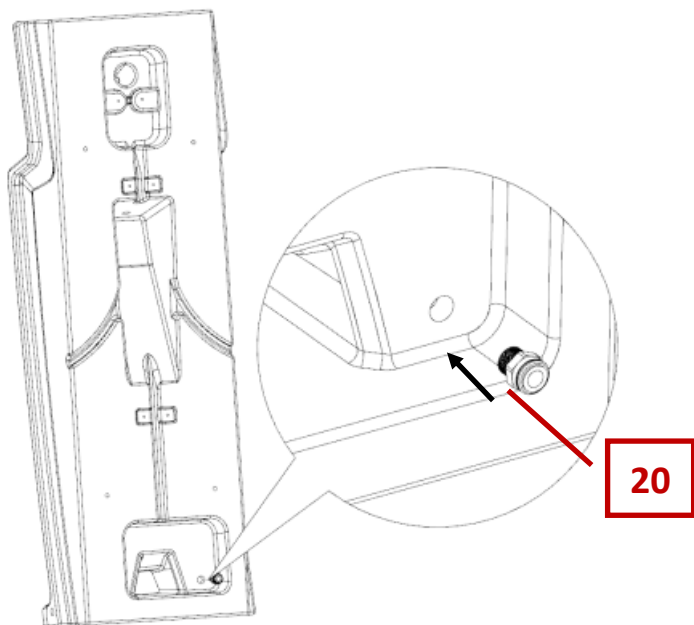

Wrench N°17 e 22

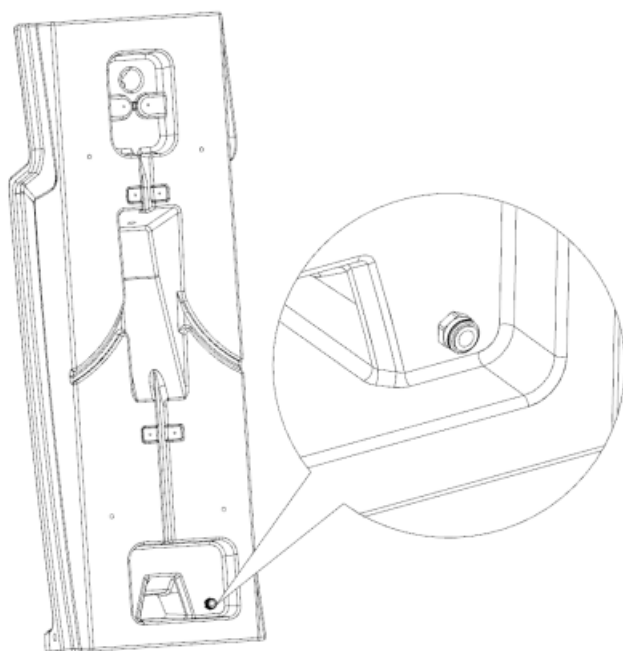

Armal key

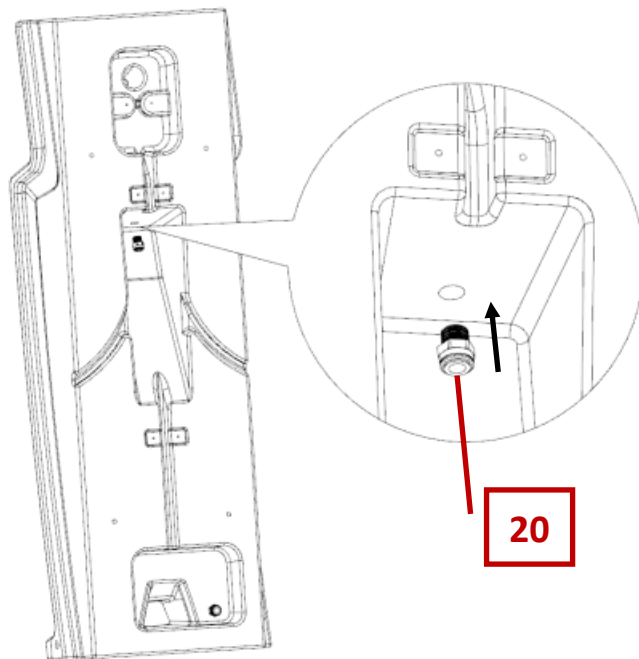

Regolable Key

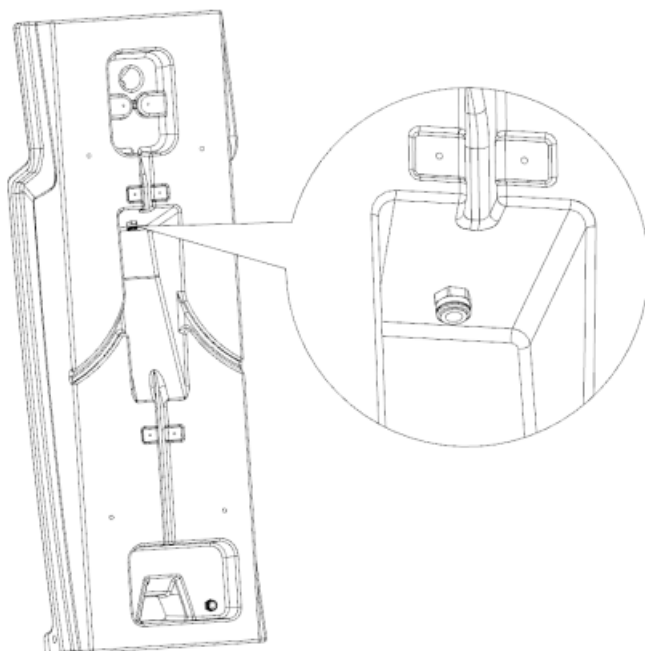

Assemble the straight fitting in the threaded insert of the hand wash basin drainer

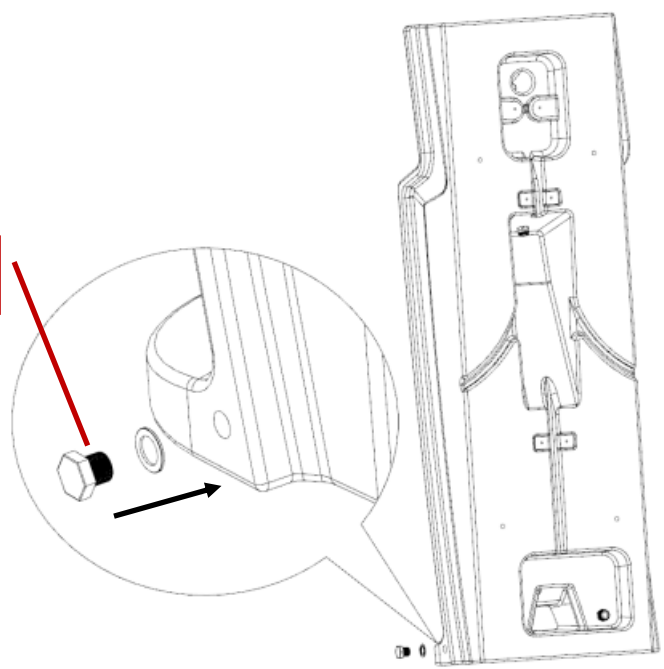

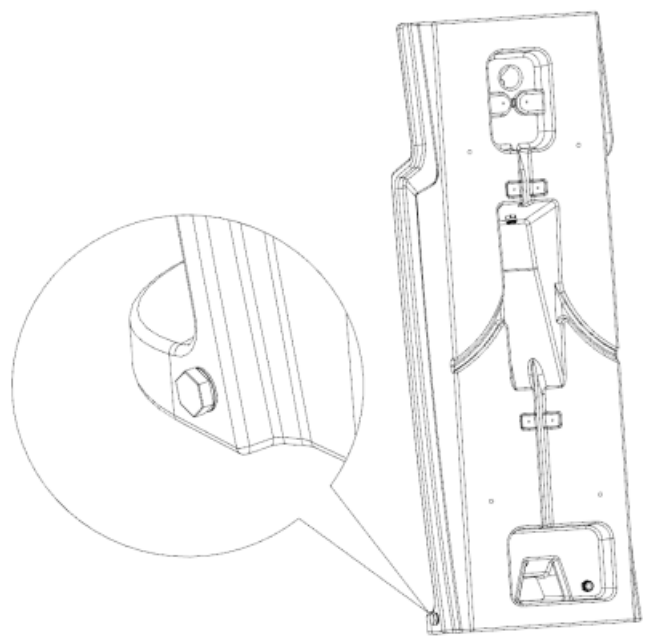

Install the straight fitting into the threaded insert of the drain pan

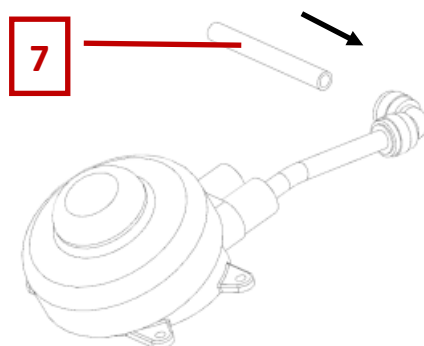

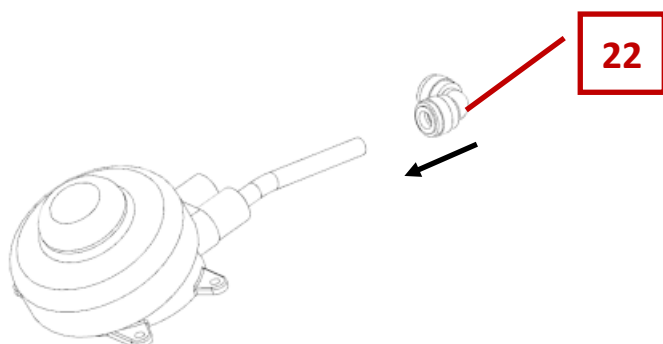

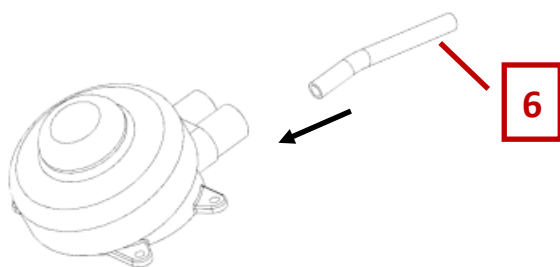

17

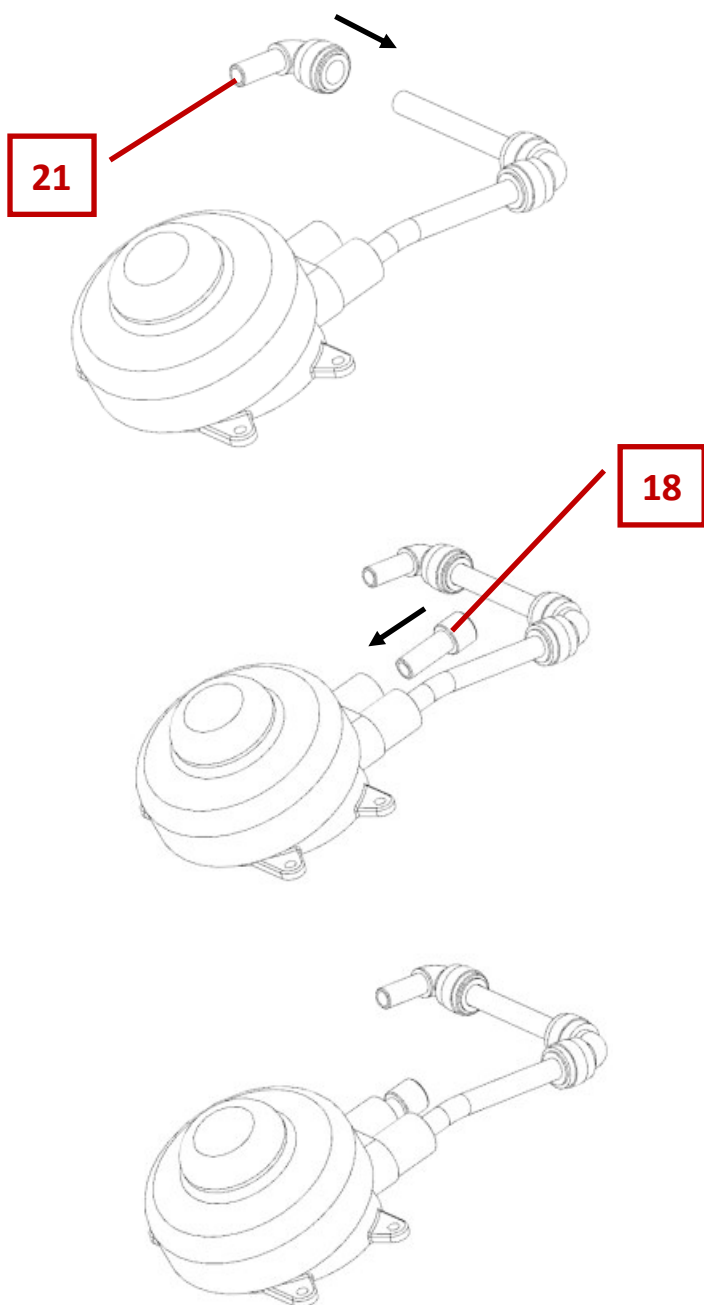

Install the cap with the gasket in the threaded insert of the hand wash drain

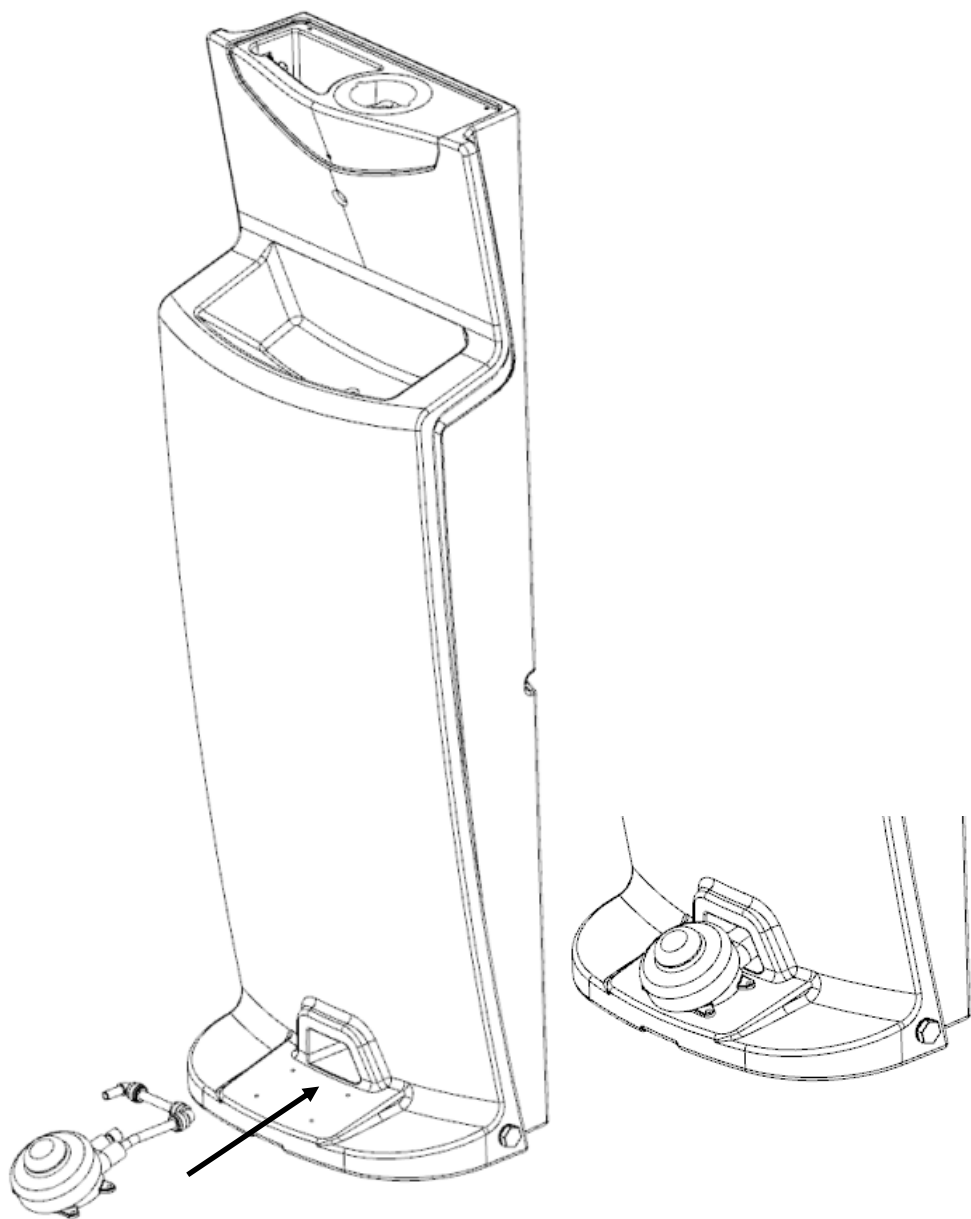

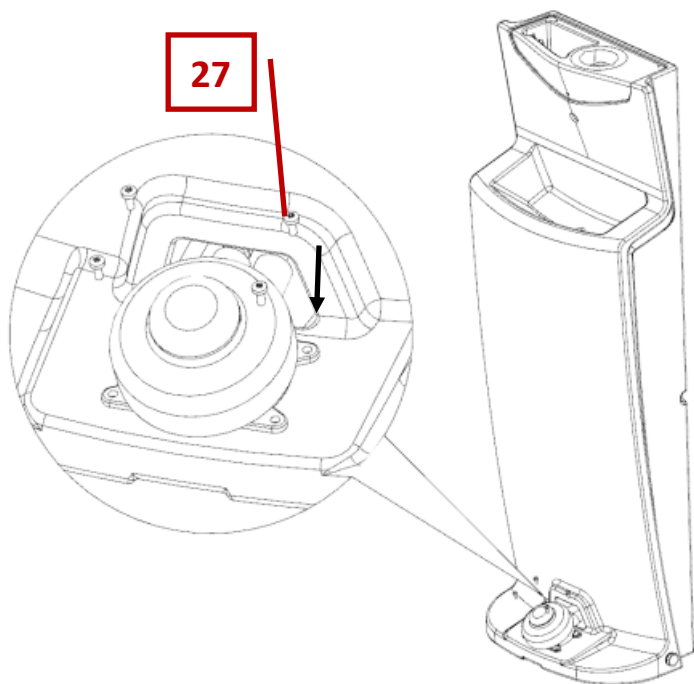

Pre-assemble the foot pump with the components following the steps

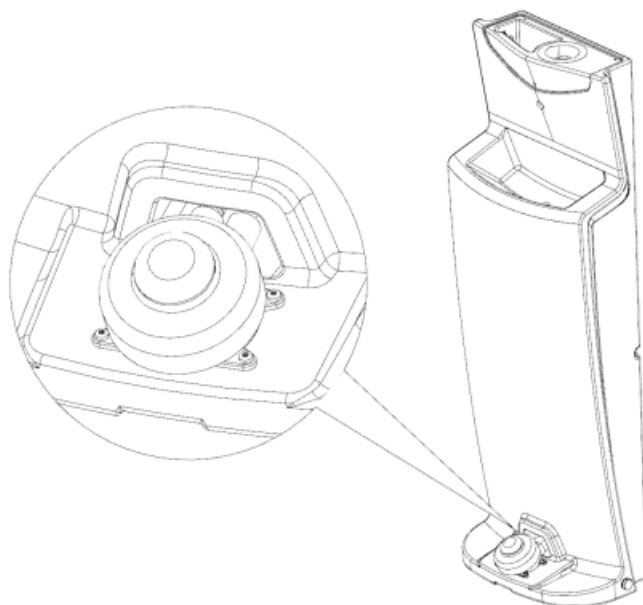

Preassemblare la pompa a piede con
i componenti indicati nella sequenza

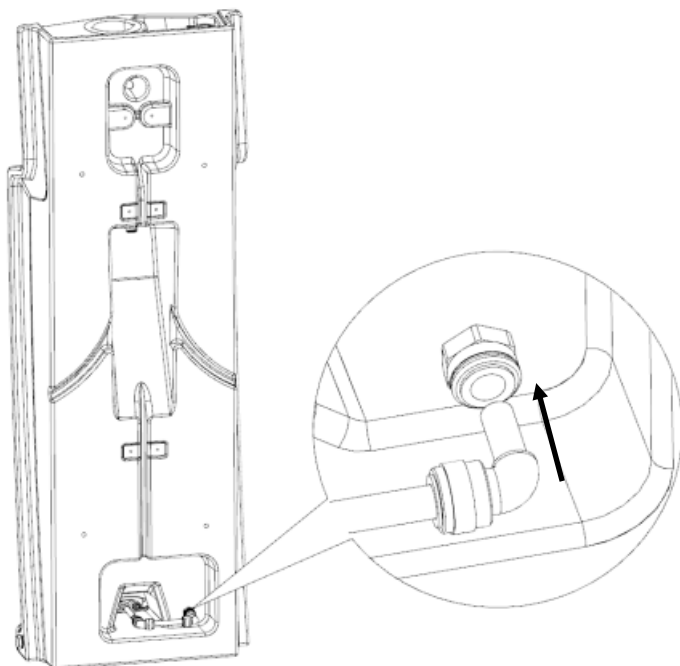

Insert the pre-assembled pump in the appropriate position taking care to pass the pipes inside the passageway

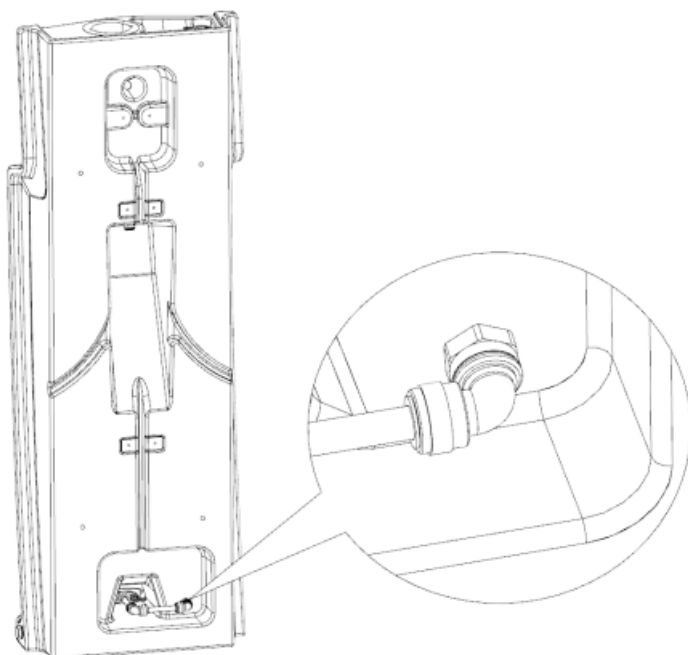

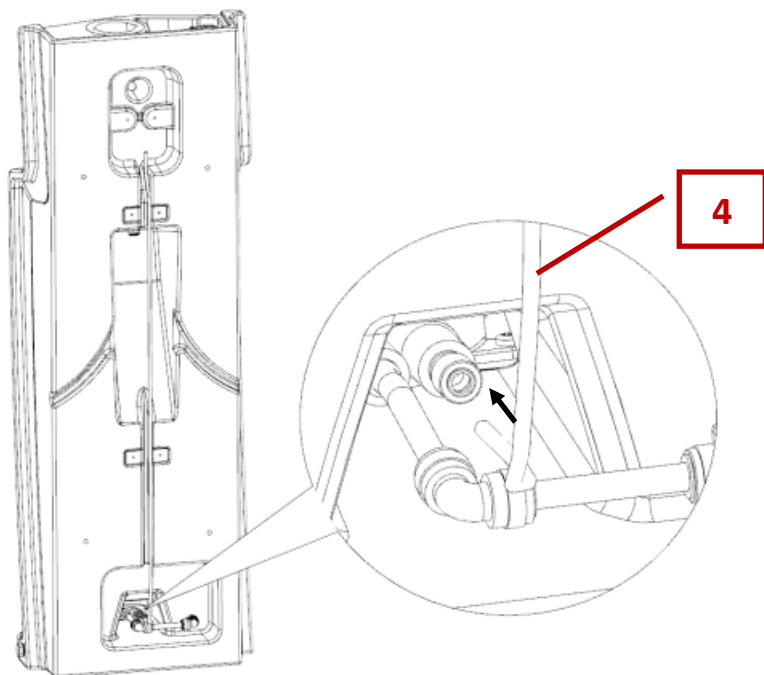

Fix the pump to the hand basin with 4 screws 04x10

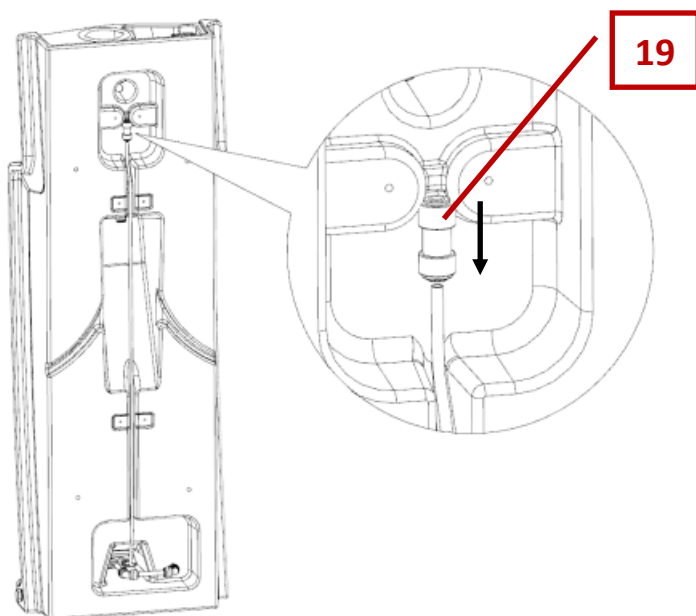

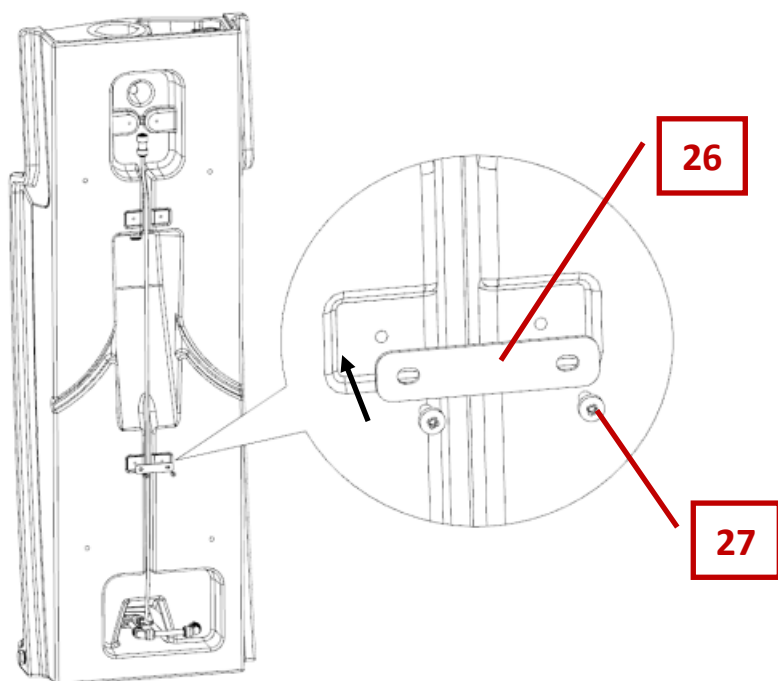

Insert the elbow into the hand wash draught

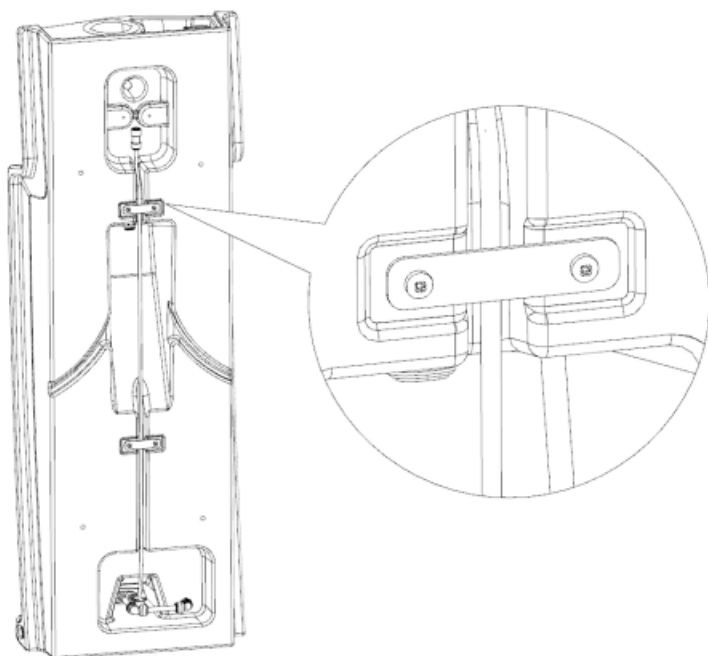

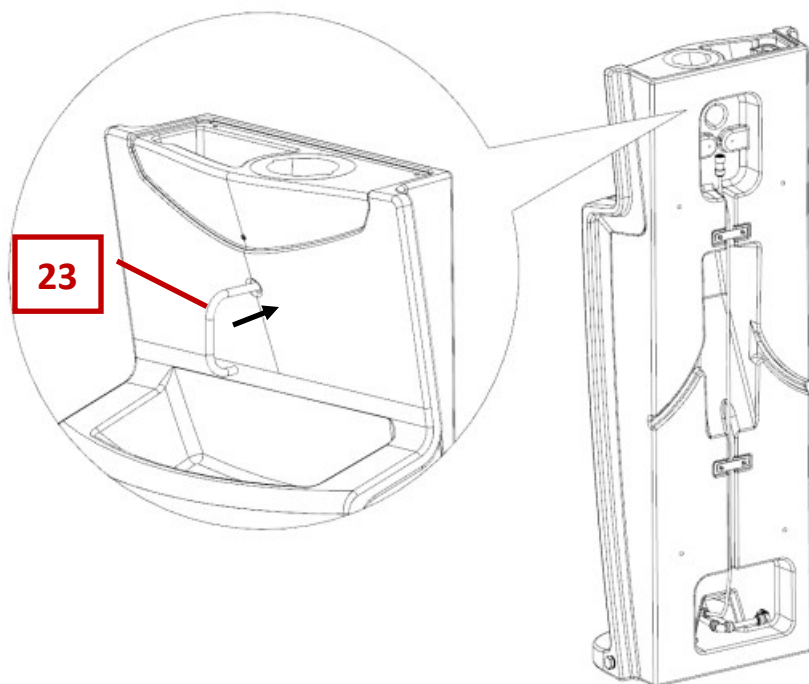

Fit the 1/4" hose into the pump and complete by mounting the straight reduction on the other side of the pipe

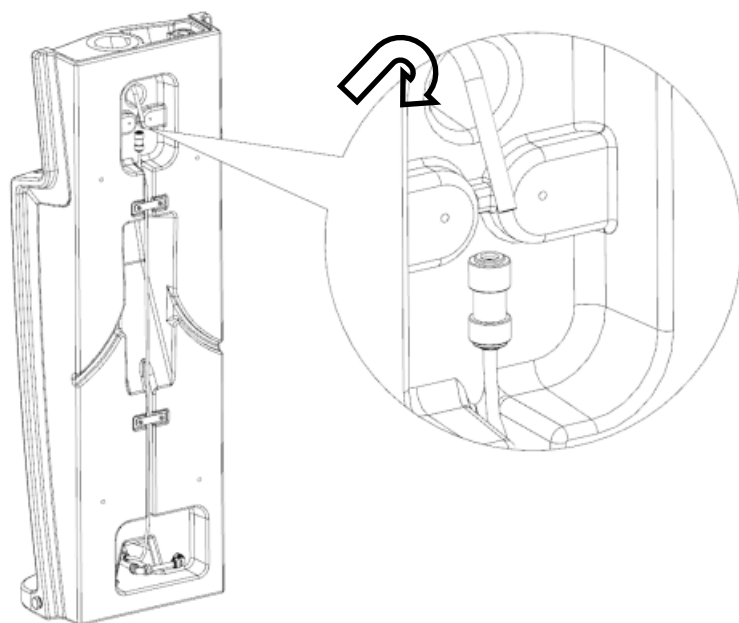

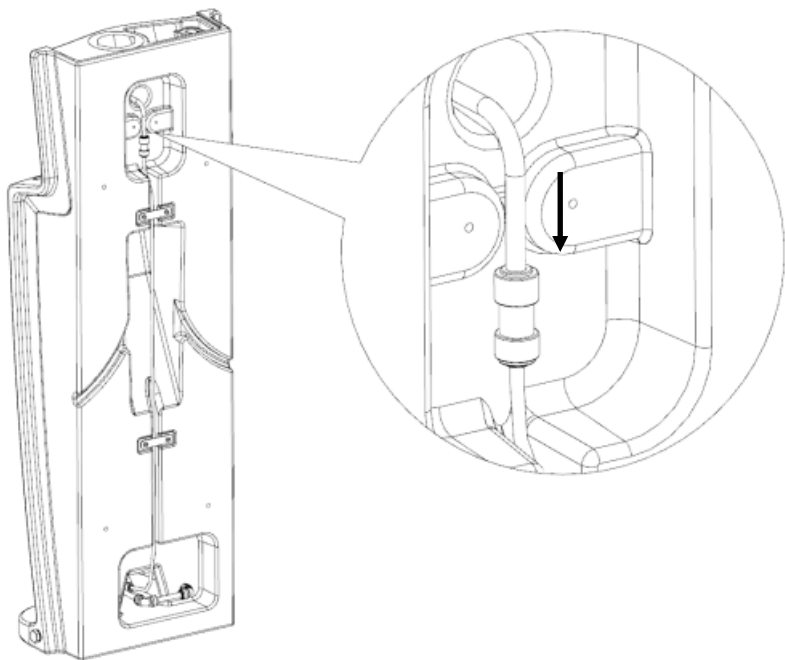

Secure the 1/4 hose to the hand wash sink with the two intermediate plates

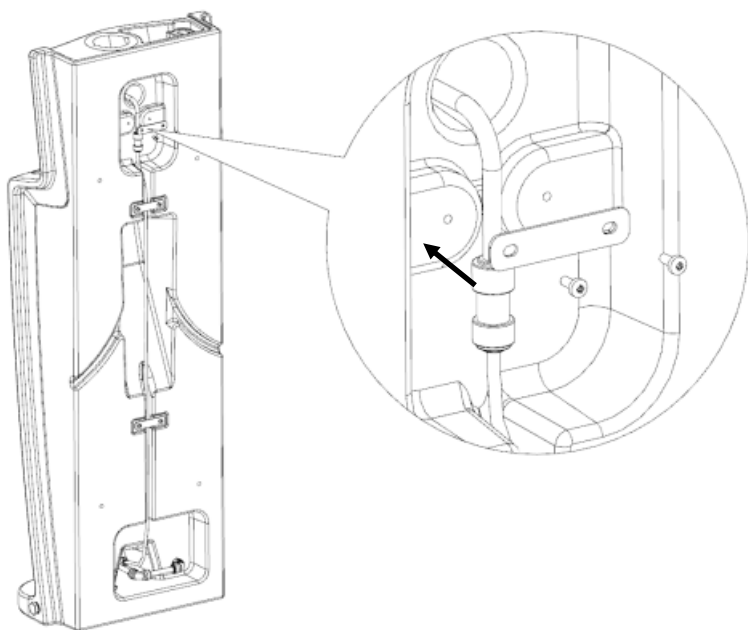

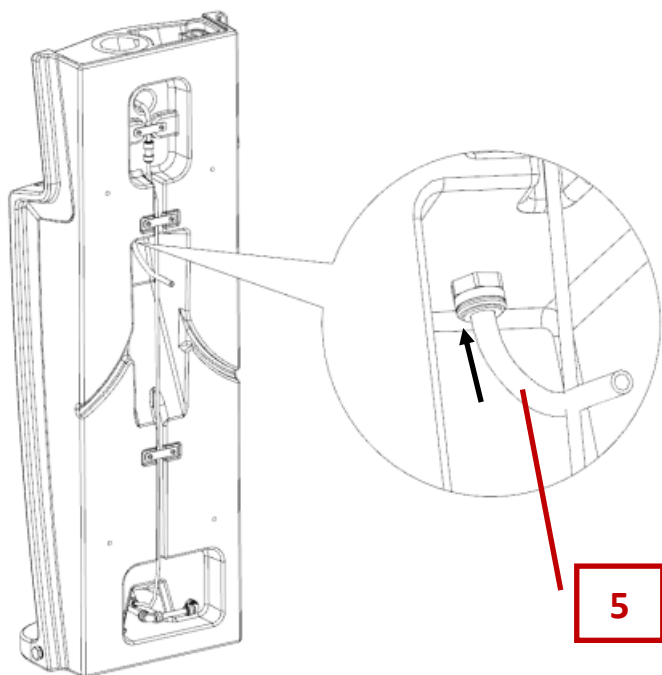

Insert the stainless-steel nozzle from the front side and rotate to position

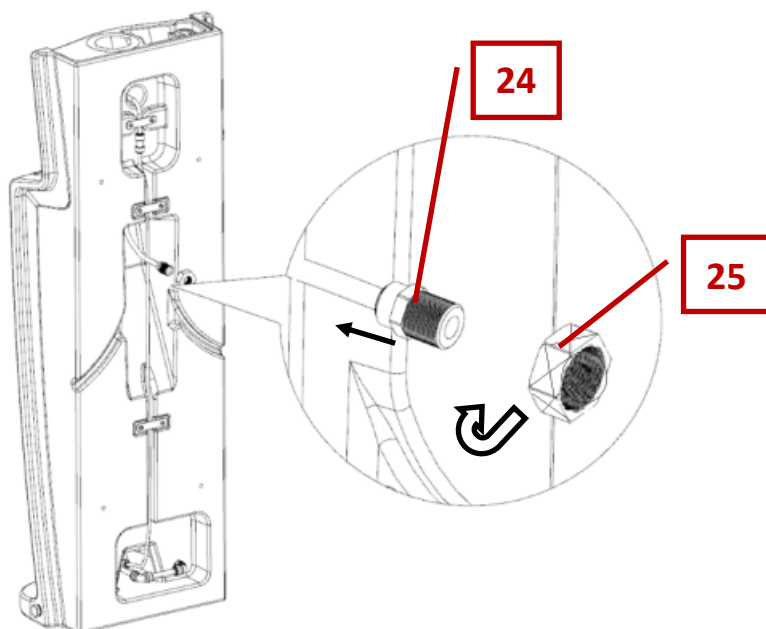

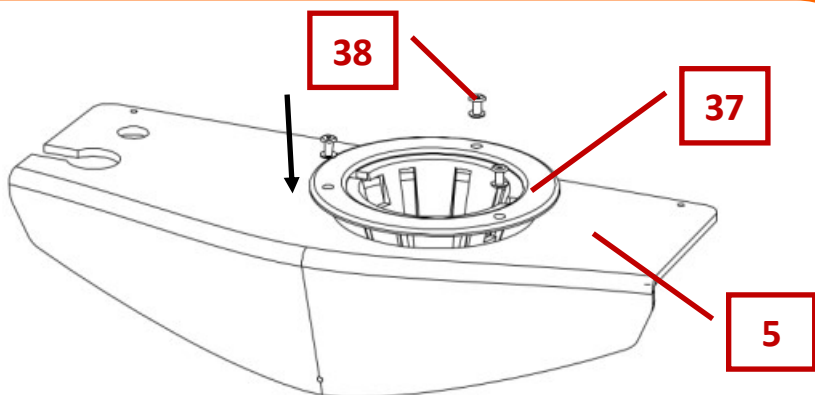

Insert the nozzle into the straight reduction and fasten the whole to the sink with the third plate

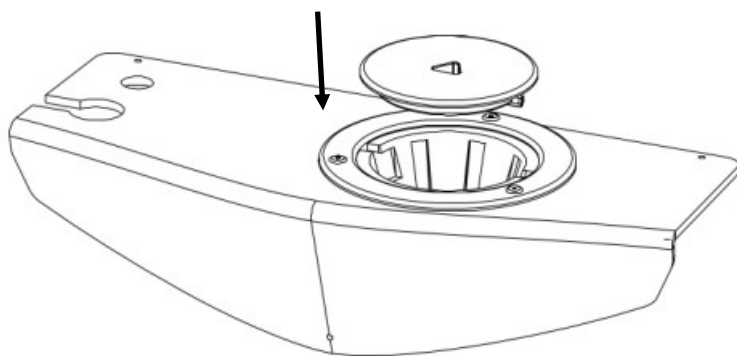

Mount the tank drain pipe (0,8 mt) and complete the assembly with the straight fitting and metal counterweight

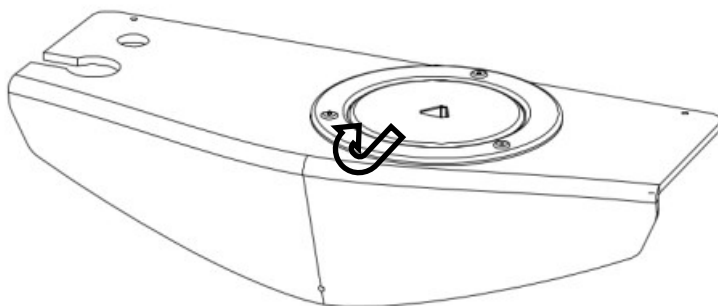

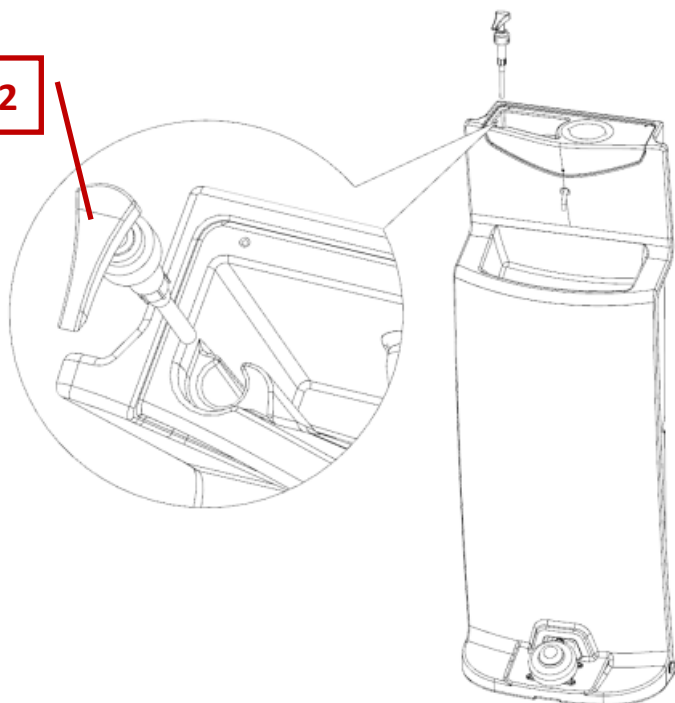

Mount the plastic filter into the transparent cover with 3 rivets

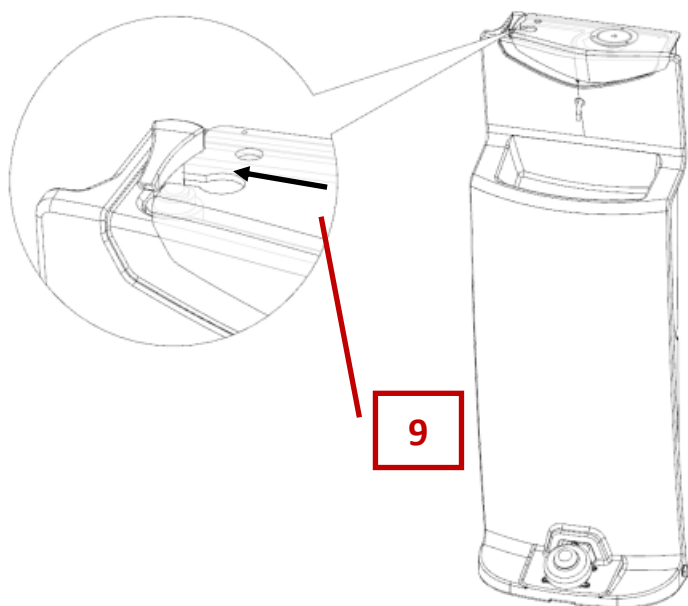

Install the cap into the filter

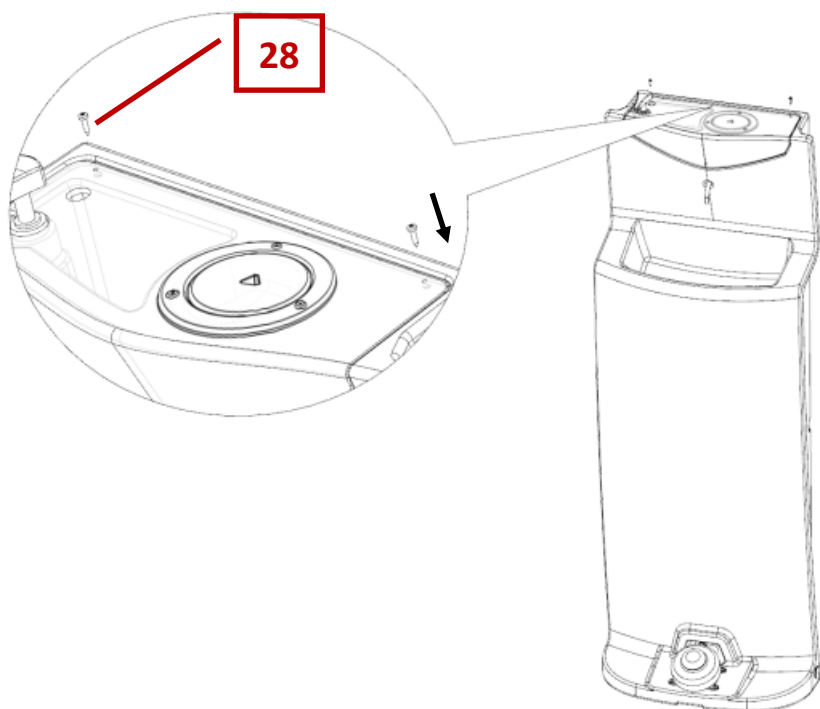

12

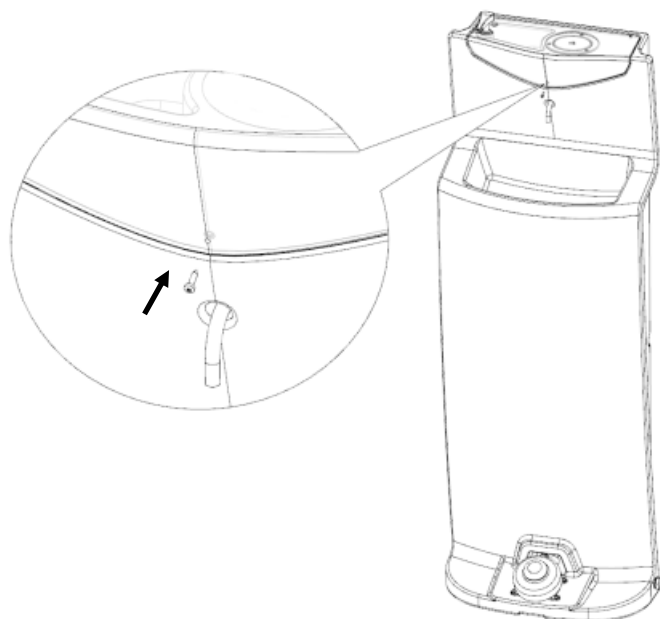

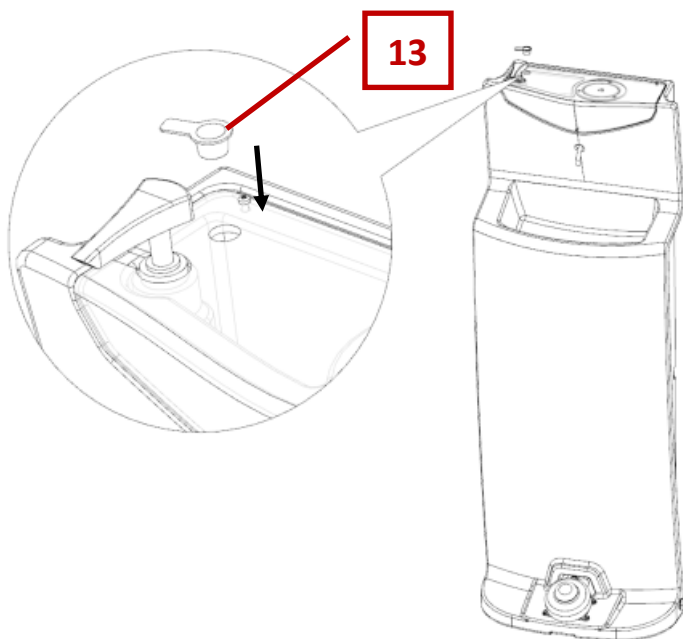

Insert the soap pump in the tray (cut the hose to size) and insert the transparent closing cover

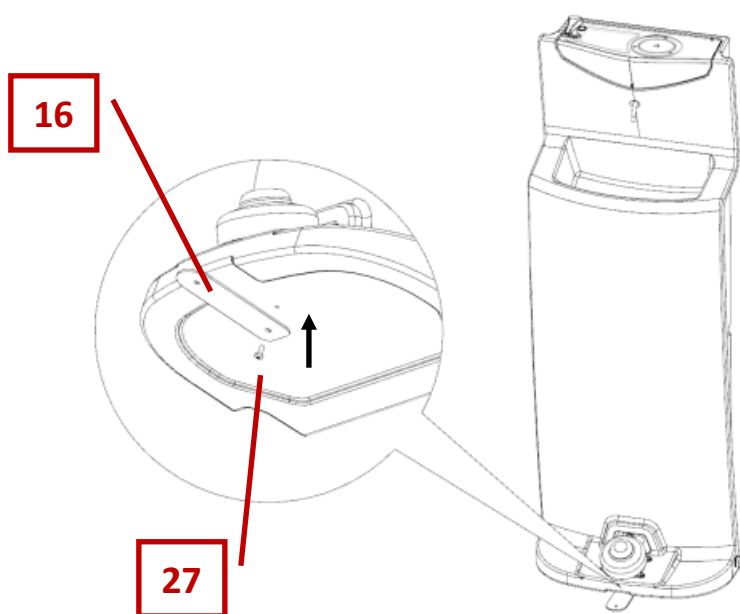

Fix the transparent cover with the 3 screws 2,9x13

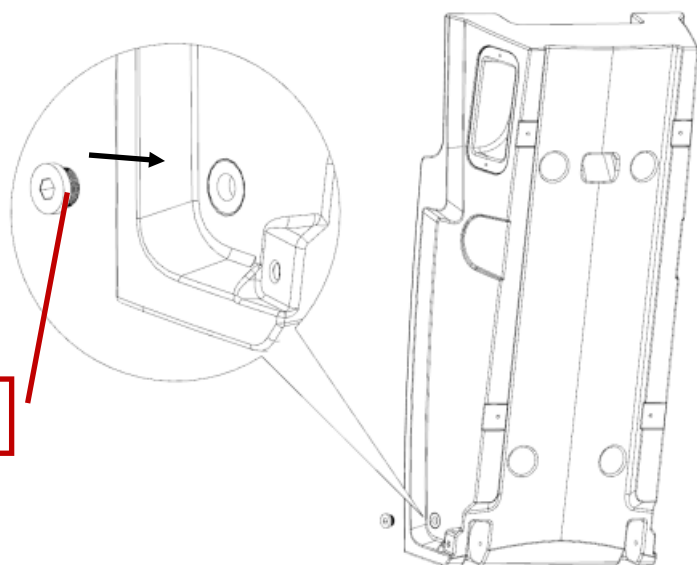

Mount the soap filler cap

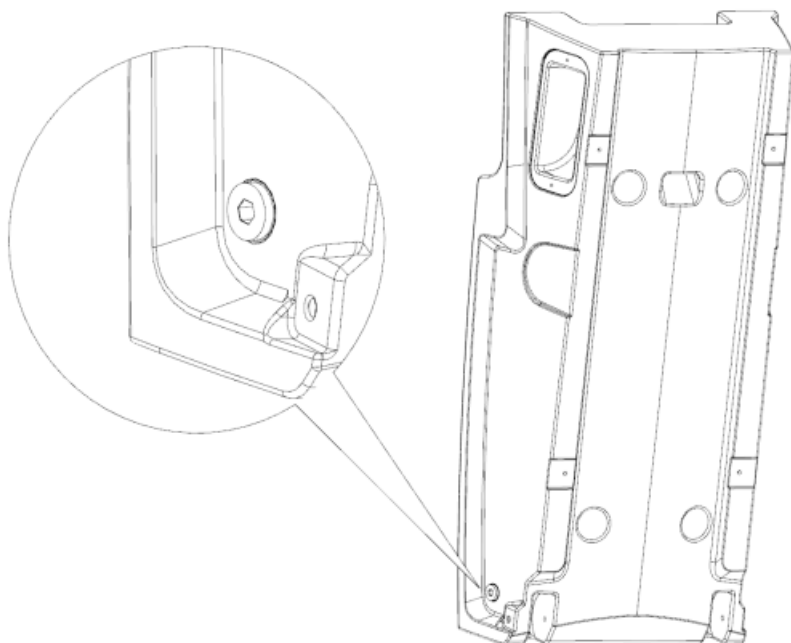

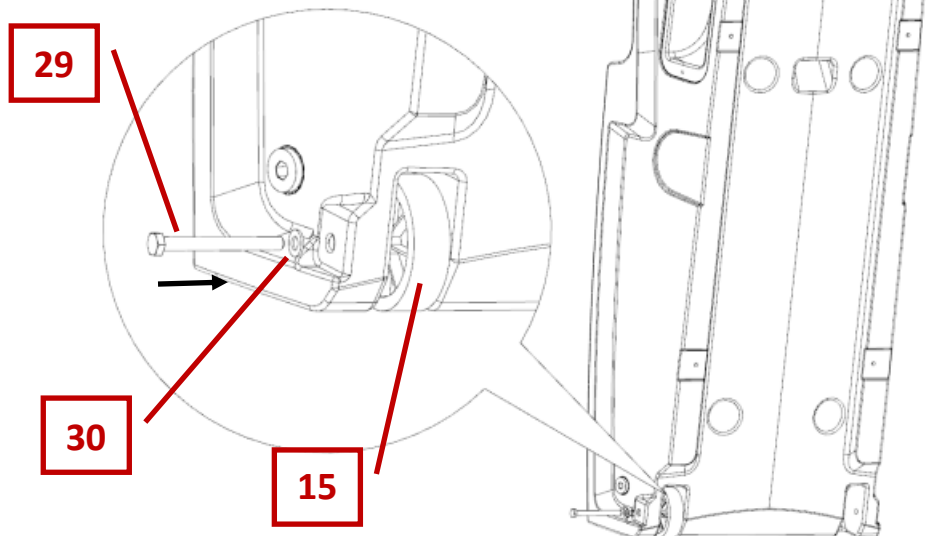

Mount the anchor bracket in the lower part of the washbasin

31

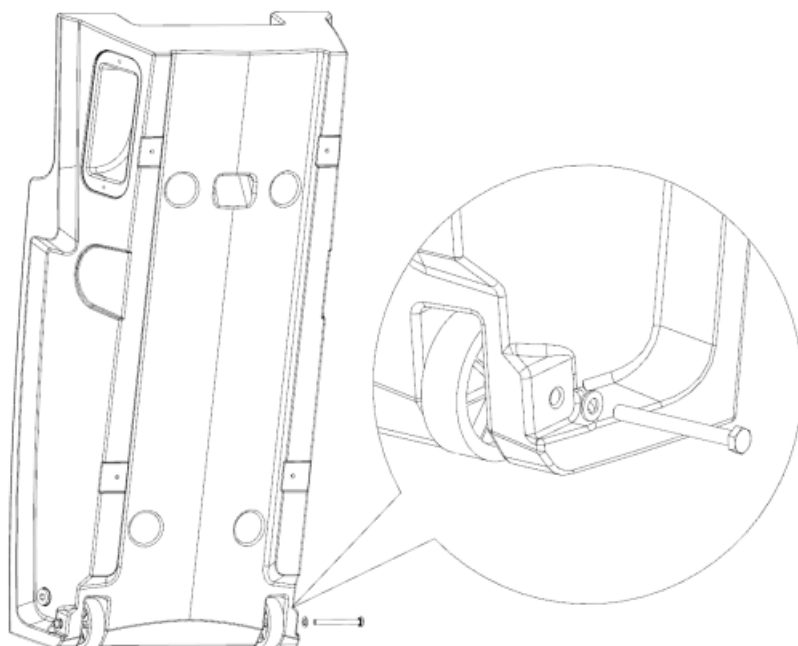

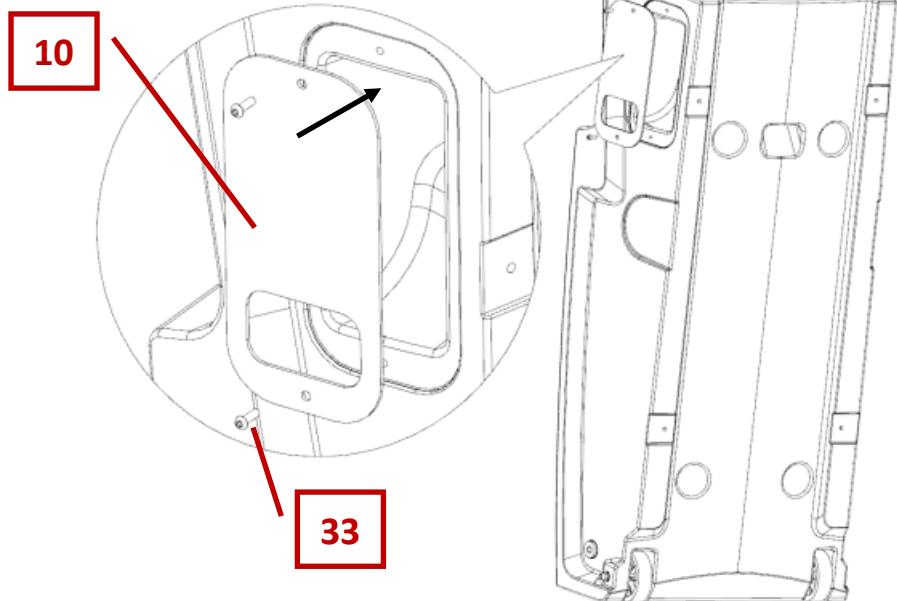

Take the rear tank and mount the cap in the drain

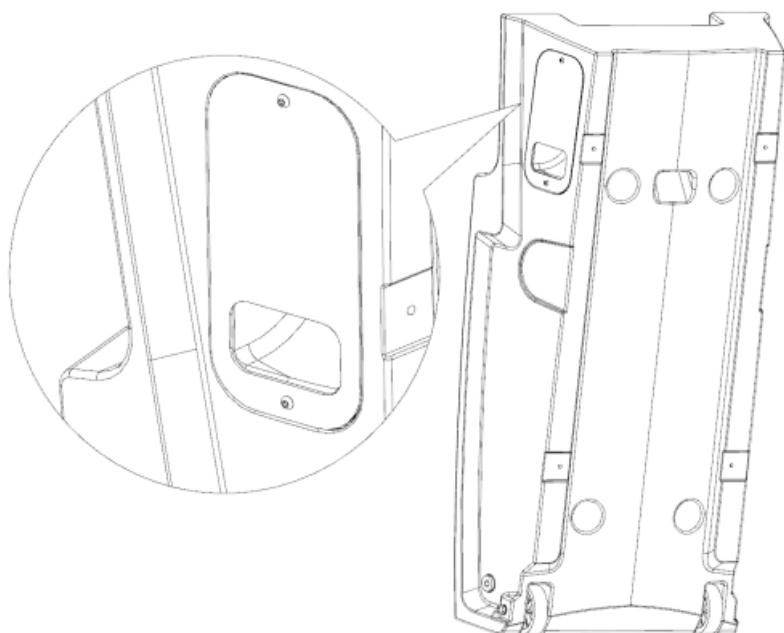

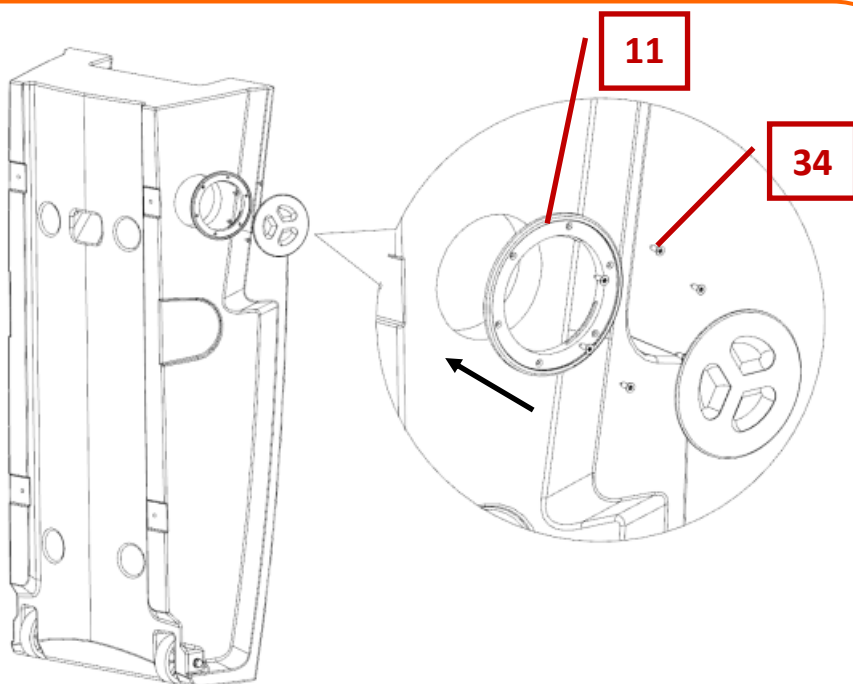

Mount the two wheels in the rear area using the screw and washer

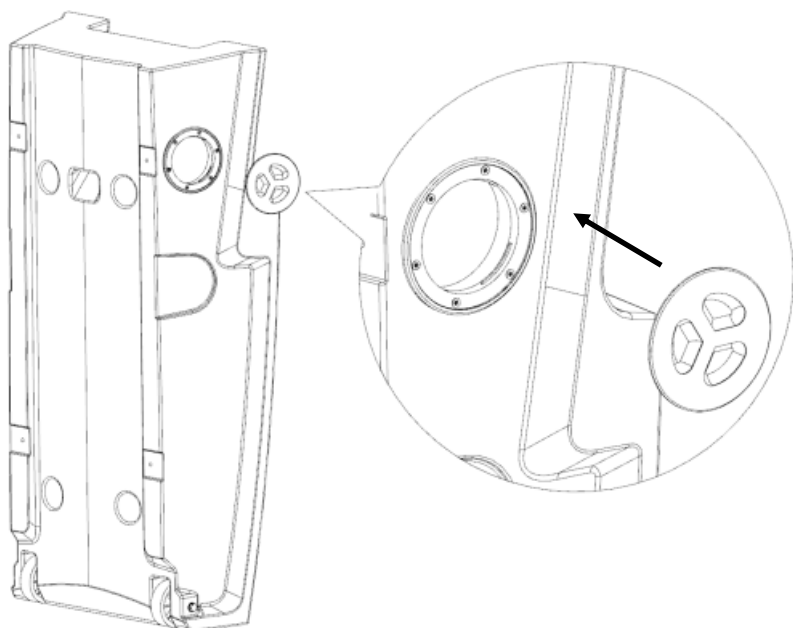

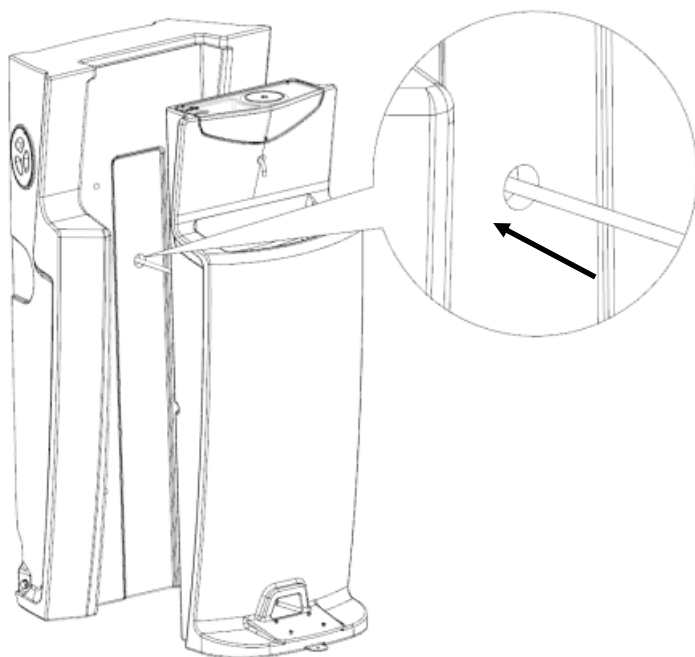

Mount the lateral towel holder carter and fix with 2 screws 06x10

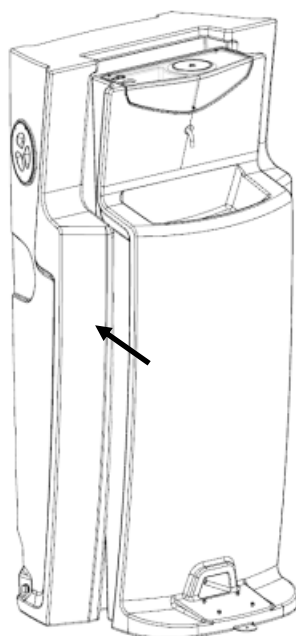

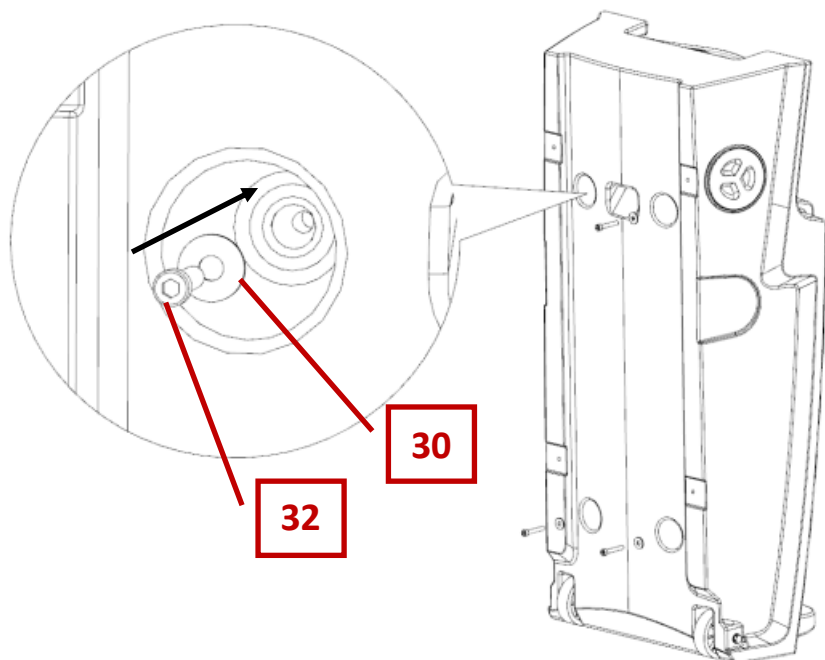

Fix the drain plug ring nut with 6 screws 4x16 on the tank and screw the cap to the ring nut

Insert the metal counterweight and the drain hose into the central hole of the tank to bring the hand-washer closer

Complete the assembly by fixing the sink to the tank with the 4 screws 8x50 + washer in the rear area
